

Litigation Support

Description

Litigation Support

In many legal situations, a judge, jury, or arbitrator, often with minimal understanding of the Satellite, Commercial Space, and Telecom Technology industries, will be the decisive factor in your case. We leverage our financial backgrounds with our substantial in-depth understanding and history of involvement within these industries to not only add credibility to your arguments but to allow our senior professionals to explain complex concepts and models in a comprehensible manner.

Our experience acting in an expert witness capacity includes:

- Valuation of assets
- Financial analysis of economic damages
- Business Valuation
- Industry expert for certain satellite, telecom and aerospace sub-sectors

We are available for select clients to serve as expert witnesses and offer the following:

- A strong team of financial professionals with extensive knowledge of the financial models and metrics used for the industry.
- Two partners with deep industry expertise available for expert testimony.

- Our full team can be used to support written testimony, ensuring:
 - Rapid turn around time
 - Great in-depth knowledge
 - Thorough checking for accuracy
